BBI COVID-19 National & Jurisdictional Resources

A message from BBI's National Director regarding COVID-19:

During this challenging time of uncertainty, and ongoing recommendations for "social distancing" as a methodology for containing the outbreak of COVID 19--BBI will continue work to support maintaining healthy cultures of care. This can also be an opportunity for creativity and flexibility around supporting families to maintain connection. It will be important to support each other in managing our own anxiety, along with clients and families, while making sure we are well properly prepared with whatever we may need.

BBI is working on a communication strategy where our network can use us as one of many "hubs" for information both on our website and Facebook page in order to centralize ease of access and not inundate folks with too much email traffic during this time of communication and coordination.

We would like to provide resources below about COVID-19 and remind individuals to follow simple but effective steps to support them to keep safe. We encourage you to check with your state’s department of health and their licensing agencies to stay current with local updates.
